IN THE CLAIMS

Please add the following Claims:

15. A product browsing system comprising:
- a server computer having a network connection;
  - a product database including first data representing a product, including second data representing a competing product, and including third data representing an association between said product and said competing product, said product database residing on a computer readable medium of the server computer; and
  - a dynamic page file for generating an electronic store page, said dynamic page file including instructions to use said second data as a query parameter to obtain said first data from said product database, said first data included in said electronic store page, said electronic store page transmitted via said network connection.
16. A method for retrieving information about a product using information about another product, said method comprising:
- a step for storing information on a first set of products;
